This is an office action for serial number 10/601,889, entitled Clamp.

***Allowable Subject Matter***

Claims 1, 2, 4, 6-10 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art does not disclose a stopper including a base portion extending from the inner wall of the first clamp portion at a substantially right angle, and a holding piece formed at an end of the base portion to extend generally vertically to the base portion, said holding piece having one end extending toward the second receiving portion and the other end extending toward the first receiving portion, said holding piece being rotatably attached to the base portion so that when the another rod-shape member is retained in the second receiving portion, the other end is directed to a center area of the first receiving portion to prevent the one rod-shaped member from entering the second receiving portion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
